## VOLUNTEERS

The FSP is a cultural non-profit organization, operation being guaranteed by a number of people who provide their expertise and their time free of charge. This is a further way to help support the project.

Please note that volunteer work consists of a trade relationship between the Foundation and the Worker. The first provides insurance coverage, incentives and training as needed to ensure that the volunteer can perform his task. The second is committed to respect of the Foundation's values and of the assigned job.

Voluntary work at FSP is short term only and is open to people aged between 18 and 24.

Although specific knowledge and skills can be of help (languages, computers and software, internet, e-mail, social networks ) the characteristics needed to help FSP with volunteer work are, above all, enthusiasm and versatility.

How can you help?

Some examples are welcome, assistance and guidance services at events, exhibitions, press conferences, or in support of information campaigns and promotion of events that involve FSP as producer or partner.

How to join ?

Please contact [info@fondazione Sergiopoggianella.org](mailto:info@fondazione Sergiopoggianella.org) indicating volunteer work with FSP, attaching a brief CV. We will then contact you for specific events to check your availability and for an interview.

Volunteer work is managed by Dr Walter Bonaventura.
