LEGACY AND DONATION

This type of support is by Major Donors who, recognizing the values of FSP, are motivated by philanthropic ideas and a special social and cultural commitment to communities.

For the Donor, this is a chance to participate actively in the FSP mission (in the case of cash donations) guaranteeing a program of conservation, enhancement and enjoyment of their property in accordance with the values under which they were collected (in a case of donation of collections assessed by the FSP Scientific Council).

For FSP, this is a chance to strengthen the program of cultural events and to increase the assets on which new projects are based.

The donor's name is entered in the Register of Merit for life.

Bequests and donations to foundations and non-profit organisations active in the fields of culture and art, as charitable contributions, offer some tax advantages to Italian citizens. The reference standards differ as to donor status, profit and non-profit.

Private persons can deduct donations from their tax return (Article 15, ITCA 917/86 and amendments) up to 10 % of their income (Art. 14, DL 35/2005 and amendments).

Companies can deduct donations from business income (Art. 100, ITCA 917/86 and amendments).

To take advantage of tax rebates, donations must be made by cheque or bank transfer.

Relations with Donors are managed by the FSP President, Dr Sergio Poggianella. For information or an appointment, please contact presidente@fondazione-sergiopoggianella.org
