## INSTITUTIONAL PARTNERSHIP

These are for those organisations that share the FSP mission and act through flexible forms of technical and economic support, via long-term projects with particular attention to territorial policy.

Institutional partners contribute to integration of FSP assets and their sites, current or of origin, with the local territory, promoting dialogue between cultures and reinforcing awareness of the cultural, social and economic heritage. Institutional partners can optimize the use of resources and encourage economies of scope, scale and specialization.

Relationships with institutions are promoted and maintained by the FSP President, Dr Sergio Poggianella.

For information or an appointment, please write to [presidente@fondazione Sergiopoggianella.org](mailto:presidente@fondazione Sergiopoggianella.org)
